what this is not

the Domain Audit Report is supporting technical evidence for public-facing domain controls. it is not a SOC 2 audit report and does not replace an auditor; it gives them less to chase. it is not a penetration test, not a risk register, and not a substitute for compliance tooling like Vanta, Drata, or SecureFrame — those tools manage the audit programme; the pack documents the public domain surface they reference.

Executive Summary

Scanned 1 host(s); recorded 15 finding(s).

Mostly compliant · 6 items need attention

Aggregate grade across 15 checks. Auditors typically flag any High-severity finding.

spf · vercel.com

~all softfail — receivers may still accept

Pain: does this domain publish an SPF record limiting authorised senders?

SOC 2 CC6.7

ISO 27001 A.8.20

NIST SC-8

- Move to -all (hardfail) once your mail flow is confirmed — softfail gives no real protection

cors · vercel.com

CORS allows all origins (wildcard)

Pain: are cross-origin policies appropriately restrictive at this origin?

SOC 2 CC6.6 ISO 27001 A.8.23 NIST AC-4

- Restrict Access-Control-Allow-Origin to specific trusted origins if this API is not fully public

dkim · vercel.com

1/6 DKIM selectors valid

Pain: are outgoing emails DKIM-signed under a published selector?

SOC 2 CC6.7 ISO 27001 A.8.24 NIST SC-8

- Check the missing selectors in your DNS provider and re-add any removed records

dmarc · vercel.com

p=quarantine — receivers send to spam

Pain: does this domain enforce a DMARC policy (quarantine or reject)?

SOC 2 CC6.7 ISO 27001 A.5.14 NIST SC-8

- Upgrade to p=reject once your SPF and DKIM pass rates are consistently high

dnssec · vercel.com

DNSSEC not configured — no DS or DNSKEY records found

Pain: is DNSSEC signing enabled for this zone?

SOC 2 CC6.6 ISO 27001 A.8.20 NIST SC-20

- Enable DNSSEC in your DNS provider's control panel and add the resulting DS record at your registrar

tls · vercel.com

cert expires in 89 days

Pain: is data in transit protected by a valid, current TLS certificate?

SOC 2 CC6.1 ISO 27001 A.8.24 NIST SC-8(1)

- Schedule certificate renewal — consider enabling auto-renewal
